Diversified industry experience

Client base has grown to a diverse range of national and multinational companies

Qualified professionals

Highly qualified management, one partner is a qualified Chartered Accountant from United Kingdom and another a BBA Hons and MBA from Institute of Business Administration, Karachi

Highly developed Information and Communication technology

Our fully automated infrastructure is operated by competent computer literate staff. We use most modern technology to provide world class services such as:

- Internet based on-line "Trace and Track" system which assists the client to keep a track on the status of their shipment 24/7
- Periodic reports and alerts are sent out via email as well as posted on our updated website on changes in all custom's related legislations specific to industry like SRO's, duties, IGM (Import General Manifest) of vessels arrived and expected to arrive, etc.

How can we help?

Consultancy and legal services

Invaluable consultancy services are available regarding Customs Tariff applicability, Laws, Procedures and Sales Tax. Guidance is provided in the preparation of Import documents so as to avoid delays and complications at the time of clearance of goods

In matters of dispute we prepare, attend and contest legal cases up to Collector (Adjudication) level. We also help and assist attorneys engaged by our clients on professional matters in cases where Tribunal and Higher Courts are involved

Customs Clearing

Complete service is provided from the receipt of documents to delivery of goods

Project Clearing

We are a "one stop shop" in custom clearance and transportation of project cargo

Post Clearing

Processing of refunds, duty drawbacks, release of bank guarantees and Indemnity Bonds and follow-up of cases referred to the valuation branch are undertaken

Warehousing

We arrange secure and economical warehousing keeping in view our association with multinational and national companies

Transportation

We have on our panel long established local and countrywide transporters providing safe and cost effective services

Our research and development team ensures we keep up to the rapidly changing Customs Clearance Mechanism in Pakistan. Much before any new Customs clearance procedure comes into effect we master it so that a smooth and faultless service is available on its implementation

We have a highly developed and modern IT infrastructure and staff expert in using the WEBOC system monitored by our highly professional partners which makes us the "firm of the future"

Your future is secure with us!
